## **Ask your Friendly Manitoban specialist!**

There is more than one way to fix a mouth!

An interdisciplinary approach relies on working collaboratively and asking the right questions from the right individuals. All of us are smarter than any one of us and working with like-minded colleagues can be wonderfully rewarding.

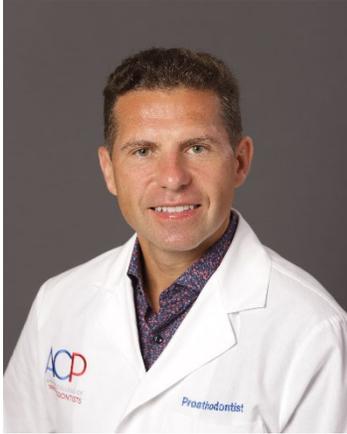

Join us for this fun and interactive session as we explore real cases and their potentials for interdisciplinary management by asking our friendly Manitoba's specialists to share their opinions and answer our questions.

### **Dr. Amandeep (Andy) Dosanjh**

Dr. Amandeep (Andy) Dosanjh graduated from the University of Toronto school of Dentistry. He then completed a general practice residency at Sunnybrook Health Sciences Centre in Toronto, where he gained valuable experience in patient care and management. His love for endodontics led him to earn a certificate in Endodontics and masters in science at the University of Detroit Mercy, where he won The Robert Ellison Award in Endodontics. Dr. Dosanjh has lectured internationally at various meetings.

He uses his excellent clinical skills and comforting personality to give patients the best care possible.

## **Dr. Michael Barczak**

Dr. Michael Barczak is a Board Certified Prosthodontist. He received his DMD degree at the University of Manitoba in 2007 and continued on to obtain a Masters in Science Degree and complete his Prosthodontic Specialty training at the University of Minnesota.

In 2010 he returned to the University of Manitoba, College of Dentistry, where he currently holds the position of Assistant Professor lecturing Complete Denture Prosthodontics and Implant Prosthodontics at the clinical and pre-clinical levels, and has lectured Partial Denture Prosthodontics and Fixed Prosthodontics.

He has published his research in the Journal of Implantology and the International Journal of Oral and Maxillofacial Implants, and is actively engaged in multiple research projects with B.Sc Dent. students. His primary interest areas include Complete Denture Prosthodontics, Implant Prosthodontics and Maxillofacial Prosthodontics.

Dr. Barczak is a reviewer for the Journal of Prosthetic Dentistry and is an active and engaged member of the American College of Prosthodontics, American Academy of Maxillofacial Prosthetics, American Academy of Fixed Prosthodontics and the Association of Prosthodontists of Canada.

Dr. Barczak maintains a part time private practice limited to Prosthodontics where he treats complex prosthodontics patients, maxillofacial, and cleft palate patients, and has worked closely with Cancer Care Manitoba in the treatment and management of patients afflicted by oral cancer.

## **Dr. Shima Amelgharib** **Pediatric Dentist**

As a mother of two and a healthcare provider, Dr. Shima understands that children require extra care, time and attention during a dental visit. She is a strong believer in prevention rather than intervention, and chooses to take a conservative approach whenever possible.

After graduating from the college of dentistry at the University of Manitoba in 2012, she practiced general dentistry for two years before pursuing her true passion—dentistry for children. Dr. Shima wanted to become an expert in Children so she spent 3 extra years studying at the University of Manitoba in order to become a board certified pediatric dentist. During this time, she also received a Masters of Science by completing research in Pediatric dental trauma. Dr. Shima is a fellow of the Royal College of Dentists of Canada and a Diplomate of the American Board of Pediatric Dentist.

## **Dr. Catherine Fontaine-Sylvestre**

Dr. Catherine Fontaine-Sylvestre obtained her Dental Degree (DMD) from Laval University in her home province of Quebec in 2015. After dental school, she completed a General Practice Residency program (GPR) at the Montreal Children's Hospital within McGill University. She then traded the French East Coast for the Prairies to complete her specialty training in Orthodontics at the University of Manitoba from 2016 to 2019. During these years, she obtained her Master's Degree (MSc) while completing research on Invisalign clear aligners. After working in an Invisalign-exclusive orthodontic practice in Montreal for a few years, she is back in the Peg for good! Dr Fontaine-Sylvestre is now a full-time associate orthodontist at Rykiss Orthodontics and is also involved in teaching orthodontic residents at the University of Manitoba as an Assistant Professor.

## **Dr. Mohammed Ahmad Javaid**

Dr. Mohammad 'Mo' Ahmad Javaid, completed his Bachelor of Dental Surgery from University of Health Sciences, Pakistan. To further his knowledge in basic sciences and research, Dr. Mo completed Master in Dental Sciences from McGill University, Canada. Following completion of the aforementioned graduate program, Dr. Mo then embarked on the journey for clinical excellence and enrolled in Diploma in Periodontics, a three-year clinical residency program with focus on advanced surgical techniques in Periodontics and Implant dentistry, at The University of British Columbia, Canada. Simultaneously, he also started his second Masters in Craniofacial Sciences at The University of British Columbia. The clinical residency program together with the research training at McGill University and University of British Columbia, has the laid the foundation for his quest for lifelong learning and professional development. Dr. Mo has cleared the Fellowship of Royal College of Dentists of Canada (RCDC) in Periodontics and is a Fellow with the RCDC. Dr. Mo has also passed the excellence exam of the Diplomate of The American Board of Periodontology (DABP) and is a Diplomate with The American Board. Currently he is an examiner with the Royal College of Dentists of Canada for the Fellowship Exam in Periodontics. He has published many articles in peer reviewed international journals and has contributed to multiple book chapters in internationally published books in the field of periodontics and implant dentistry. Dr. Mo spends most of his time in private practice. However, he is also following his passion for teaching and is currently involved with Graduate Periodontics Department at The University of Alberta in the capacity of Clinical Assistant Professor. He is also associated with the Graduate Prosthodontics Department at the University of British Columbia.

Dr. Mo spends his free time with family, friends, and colleagues. He is an avid fan of bodybuilding, mixed martial arts and anything and everything related to diet and fitness.

Dr. Mohammad A. Javaid, BDS (UHS), MSc (Dental Science – McG),  
Dip. Perio (UBC), MSc Craniofacial Sciences (UBC),

Fellow Royal College of Dentists of Canada (Periodontics)  
Diplomate of The American Board of Periodontics (DABP)  
Clinical Asst. Professor Graduate Periodontics (U of A)

**Dr. Ken Shek**  
**Session Moderator**

Dr. Shek graduated from the University of Manitoba, Faculty of Dentistry in 1984, and has practiced dentistry at Academy Dental Group ever since. Dr. Shek undertook a mission trip to Africa wherein we provided dental services to underprivileged children, which he shares was an amazing and fulfilling experience.

Away from the office, Dr. Shek enjoys spending time with his family, travelling and being in the great outdoors. In the summer he spends time at his cottage on Lake of the Woods and in the winter enjoys hockey (Go Jets Go) and downhill skiing.

**Dr. Hoda Hosseini**  
**Session Moderator**

Dr. Hosseini is a board certified periodontist and the principal owner of ClearCare Periodontal and Implant Centre. She practises in full periodontal spectrum with special interests in esthetic and functional rehabilitation using dental implants and reconstructive surgeries.

Dr. Hosseini is passionate about teaching and has been involved with clinical teaching at both the University of Manitoba and the University of Western Ontario. She lectures extensively and is involved with implant training programs for dental professionals

Dr. Hosseini is a Fellow of the Royal College of Dentists of Canada, and an executive committee member of the Canadian Academy of Periodontists. When not working, she can be found at home enjoying time with her family.
