Global Diagnosis - A New Vision of Dental Diagnosis and Treatment Planning

Session Overview

It is the purpose of this course to provide a systematic approach to diagnosis and treatment plan the complex interdisciplinary dental patient with a common language that may be used by the orthodontist, periodontist, and oral and maxillofacial surgeon, as well as the restorative dentist. The four Global Diagnoses which dictate all interdisciplinary treatment planning will be defined. A set of questions will then be presented which will aid the interdisciplinary team in the diagnosis and treatment planning of the complex dental patient.

Session Outcomes

1. Describe 4 Global Diagnoses
2. Describe the “5 CORE Questions” with their corresponding treatment options
3. Communicate with the interdisciplinary team
