Dr. Howard M. Fogel
DMD, MS, FRCD(C), Diplomate ABE, FICD
Update on Cleaning and Shaping Root Canal Systems

Dr. Howard Fogel received his degree in dental medicine from the University of Manitoba College of Dentistry in 1980. He practiced general dentistry in Winnipeg for five years. In 1988, Dr. Fogel completed an endodontic residency and masters degree program in the Endodontic Advanced Education program at the Oregon Health Sciences University.

Dr. Fogel is a Fellow of the Royal College of Dentists of Canada, a Diplomate of the American Board of Endodontology and a member of the College of Diplomates. He is a Specialist Member of the Canadian Academy of Endodontics and the American Association of Endodontists. He is also a member of the Canadian Dental Association, the Manitoba Dental Association and the Winnipeg Dental Society. He has served on the executive and is a past President of the Canadian Academy of Endodontics.

Dr. Fogel taught in the Section of Endodontics, Department of Restorative Dentistry at the University of Manitoba College of Dentistry for over 35 years. He has presented many continuing education lectures and workshops as well. He was honored by being elected a Fellow of the International College of Dentists in 2018.

Update on Cleaning and Shaping Root Canal Systems

Session Overview
This session will focus on modern techniques and instrumentation for access preparation, glide path management, canal shaping and cleaning root canal systems. The latest in the evolution of endodontic procedures will be presented.

Detailed, comprehensive and practical step-by-step methods will be offered. Applying these concepts will improve efficiency and avoid most procedural errors. This will help to reduce the stress that can accompany endodontic procedures.

Session Outcomes

1. You will gain confidence in your endodontic procedures.
2. Develop a greater understanding of access and canal preparation.
3. Be able to apply practical skills in your endodontic cases immediately.
