How Not to Get Sued for Malpractice

The potential for a malpractice accusation is a fact of life for every dentist. CDSPI is pleased to present *How Not to Get Sued for Malpractice*, which highlights the importance of carefully managing patient issues. A malpractice lawyer discusses tips for avoiding lawsuits and dealing with them when they occur. Session topics include:

1. What a patient needs to prove in a negligence claim.
2. The roles of an adjuster, your insurer and your lawyer in dealing with a claim.
3. Best practices to help you avoid patient issues.
4. Your privacy obligations for patient information.
5. Resources to support your personal and professional well-being.

Keynote Speaker:

**Anthony Foderaro BA, JD**
Associate, Fillmore Riley LLP

As an associate of Fillmore Riley LLP, Anthony Foderaro practises primarily in the areas of civil litigation and insurance law. He has represented health care
professionals in medical malpractice matters, as well as regulators in the area of professional discipline. Anthony is an author, and co-author, of several articles and whitepapers dealing with a range of legal issues.

Also Speaking:

**Michael Tyler CFP® FMA**
Investment Planning Advisor, Manitoba Region
CDSPI Advisory Services Inc.

With over 20 years of industry experience, Michael Tyler provides expertise in financial wealth management solutions exclusively for the needs of dental professionals. He provides dentists with comprehensive financial planning advice that addresses their personal and professional considerations in the areas of tax, retirement, estate, investment and wealth transfer.

Also Speaking:

**Renata Whiteman BSc.**
Senior Advisor, Insurance
CDSPI Advisory Services Inc.

Renata Whiteman joined CDSPI Advisory Services Inc. in 2000. In her current role she advises a range of clients, including dental specialists, general dentists and students, on insurance plans to meet their specific needs. Renata shares her
knowledge of insurance risk management with dentists across Canada by presenting at regional component societies, study club meetings and Continuing Education courses.
